### **ABSTRACT**

#### **Kupka, J.: Cultural dominants as specific landscape attributes**

This article deals with the phenomenon of cultural dominants in landscape. It contains definition of this issue (types of dominants, dominant attributes) and describes related legislature (legislative protection). The article asks questions about meaning of cultural dominants, unique attributes in landscape scenery. It describes symbolical function of dominants and mentions a question of new cultural dominants in landscape. In conclusion it submits open questions and suggestions for next research of this phenomenon (identification and classification of dominants, parameters and criteria).

**Key words:** cultural dominant, landscape character, landscape scenery, landscape composition, symbol, cultural landscape
