ABSTRACT

Mückstein P., Tschorsnig H.-P. & Vaňhara J.: **Some new host records of west Palaearctic Tachinidae (Diptera)**

Six species of tachinids (Tachinidae, Diptera) were reared from six species of caterpillars (Lepidoptera) from Turkey, the Czech Republic and Hungary. *Hypovoria pilibasis* (Villeneuve, 1922) is a new species for the fauna of Turkey.

Key words: Diptera, Tachinidae, Exoristini, Tachinini, Voriini, hosts, Czech Republic, Hungary, Turkey
